To all Christian Science Nursing Organizations that participated in the AOCSN meeting in St. Louis in April 2012:

Dear Friends,

The news about your harmonious meeting, together with the accompanying pictures, moved the hearts of your five friends on the Board of Directors deeply. We are grateful for your willingness over the last 2 years to work on that goal of finding common ground. We fully realize that the path was rocky and sometimes appeared simply impossible, but your willingness to persevere in humility and Christliness and to follow God's leading has made reaching the goal possible.

What you as a group have accomplished cannot be underestimated in its effect on our movement and even the political and cultural landscape in the world. You have proven that setting aside a personal agenda, however well justified historically and factually, is not a loss but rather opens the door to receive God's rich blessings. You have demonstrated in a remarkable way the necessary humility to reach that point.

We and the world are in your debt, and our movement is stronger because of your achievement.

In deep gratitude,

THE CHRISTIAN SCIENCE BOARD OF DIRECTORS

Michael Pabst
